American-Grown Roses for American Gardens

HYBRID PERPETUAL

"He who would have beautiful Roses in his garden must have beautiful Roses in his heart." It's true of the individual; it's true of the nation. And never were time and conditions more opportune than now to make a more beautiful America.

B. & A. Roses are good and will give you absolute satisfaction, because they are produced and grown under exactly the conditions they will have when planted in American gardens. This little list is just our "Show Window"—to make you want to order a few Roses right now and let us send you, also, our complete Rose catalogue, describing hundreds of our home-grown Roses for American gardens.

The **Collection of Twelve Roses** described herein will be sent for \$7.50.

Augustus Hartmann. H.T. Beautiful scarlet-red, with a tinge of copper-color on the petals; lovely form.

Duchess of Wellington. H.T. Best yellow Hybrid Tea Rose. Sometimes called "Yellow Killarney." Large, well-formed flowers, full and globular, intense saffron-yellow, stained with crimson, changing to deep coppery saffron-yellow.

Edith Cavell. Poly. Deep blackish crimson. Flowers produced in abundance from spring till frost. Compact habit. Quite distinct in this class.

George C. Waud. H.T. Glowing orange-vermilion. Large, full, globular blooms of perfect form; delightfully fragrant.

Gruss an Aachen. Poly. Beautiful flesh-pink flowers, overlaid with creamy yellow, shading to deep pink at the base. A heavy, compact grower.

Hugh Dickson. H.P. Very large flowers of intense crimson, shaded scarlet; perfect form; delightfully perfumed.

Lady Alice Stanley. H.T. Large blooms; lovely pale flesh, outside petals deep coral-rose—a beautiful combination. Strong, upright grower; profuse bloomer. Exquisitely fragrant.

Lady Greenall. H.T. Large flowers of intense saffron-orange, heavily zoned and overspread on deep creamy white, reflex of petals faintly suffused delicate shell-pink. A vigorous grower and profuse bloomer.

Mme. Jules Bouche. H.T. Perfectly formed, large, full flowers of handsome lemon-white, shaded virgin rose.

Mme. Marcel Delanne. H.T. Pale pink or soft rose; delightfully fragrant. Strong, upright grower; profuse bloomer.

Miss Helyett. Cl. The earliest bloomer of the hardy climbers, and blooms for a month. Short, round, very deep pink bud, shaded with red, opening to a large, full flower of blush-pink, with just a touch of creamy yellow.

Mme. Edmee Metz. H.T. Large, globular flowers of perfect form. Beautiful rosy carmine, with silvery salmon shading.
